7-day moving average daily estimated number of COVID-19 infections

SOURCE: DATA.GOV.SG

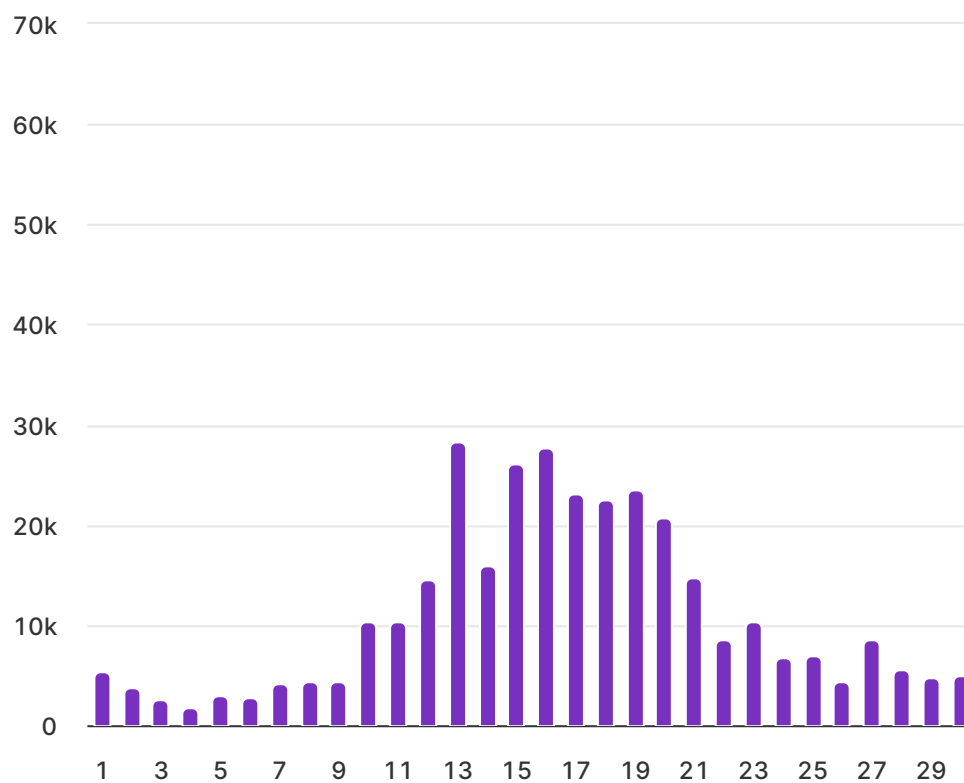

Daily number of COVID-19 infections is estimated based on data from the National ARI Surveillance Programme.

Data are not available on weekends and public holidays. As such, estimates remain unchanged from the previous working day.

Due to methodological differences, daily estimates will not add up to estimates by Epi-week, but will reflect similar trends.

## Number of COVID-19 infections by Epi-week

---

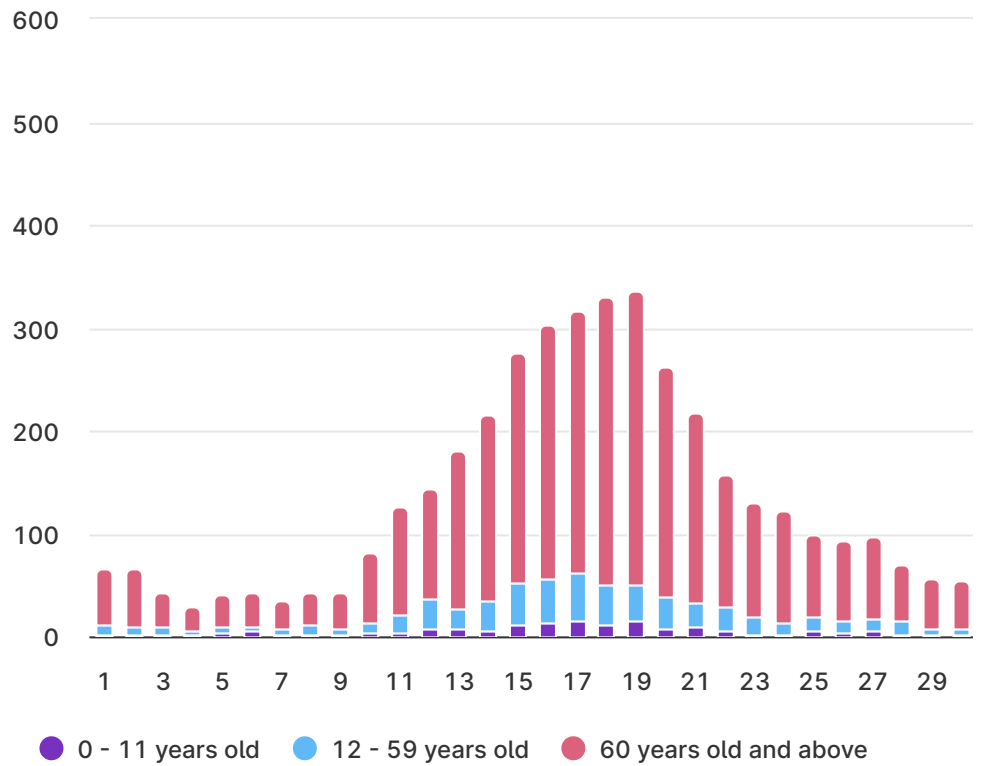

SOURCE: DATA.GOV.SG

*As of Epi-week 7, number of COVID-19 infections are estimated based on the National ARI Surveillance Programme. Estimated number of infections for recent Epi-weeks may be subject to revision as more data is available.*

## Average daily hospitalised / ICU cases by Epi-week

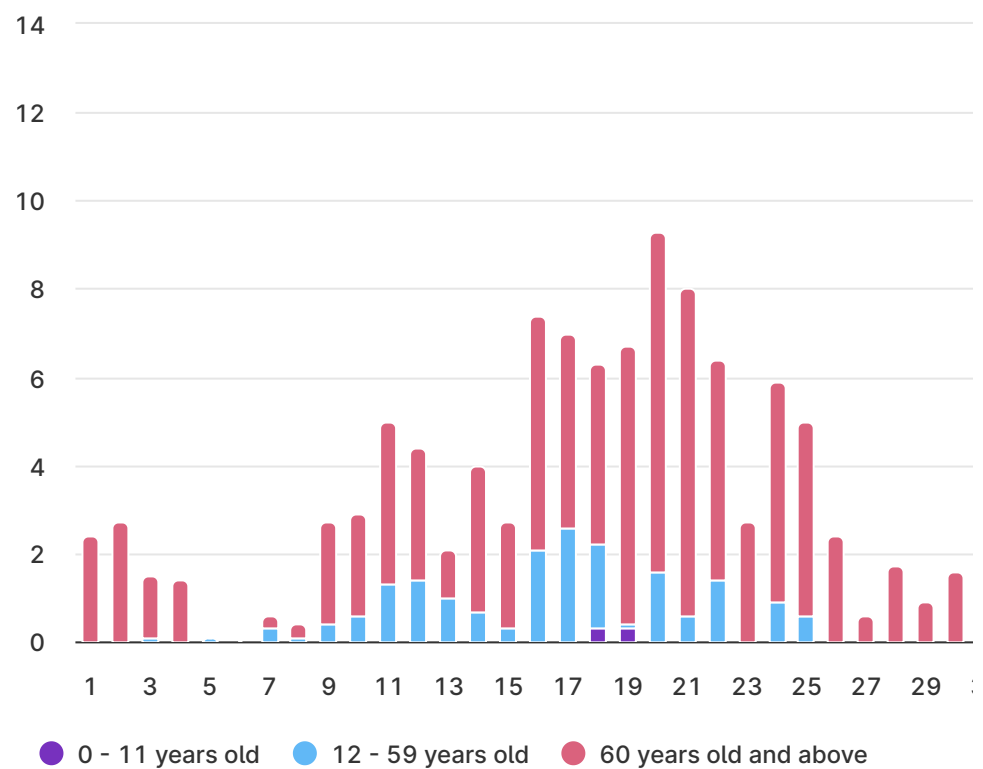

---

**Hospitalised**

### In ICU

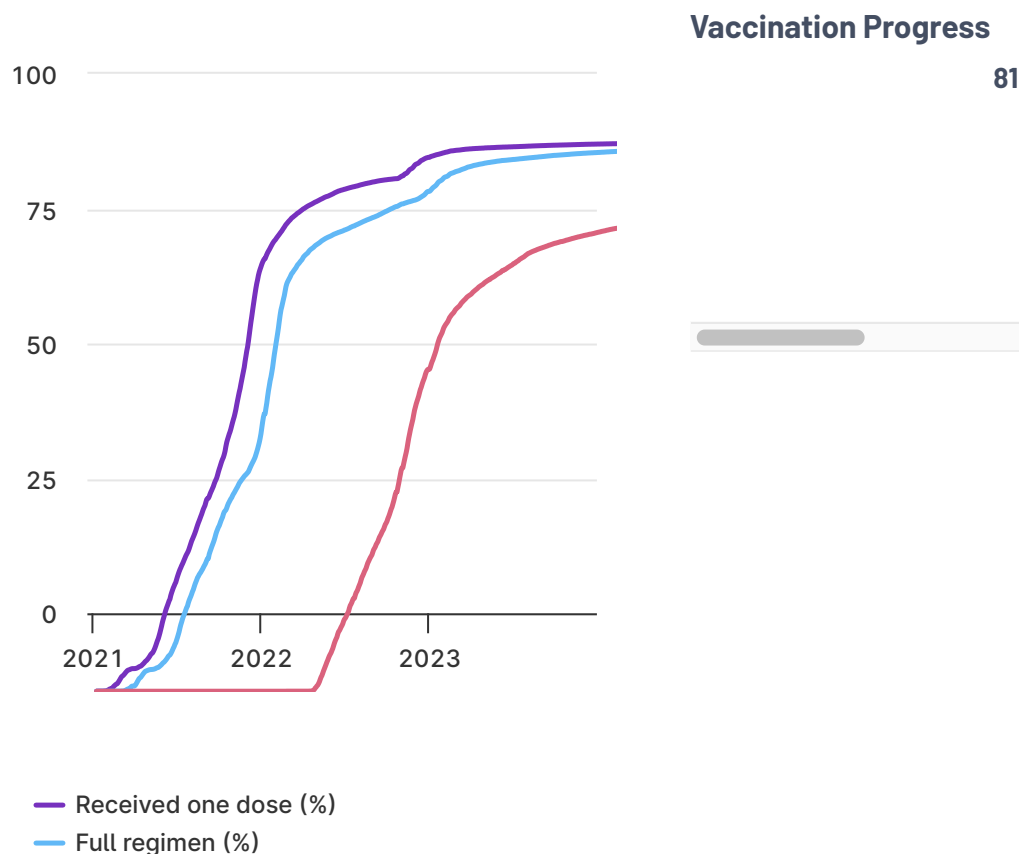

SOURCE: DATA.GOV.SG

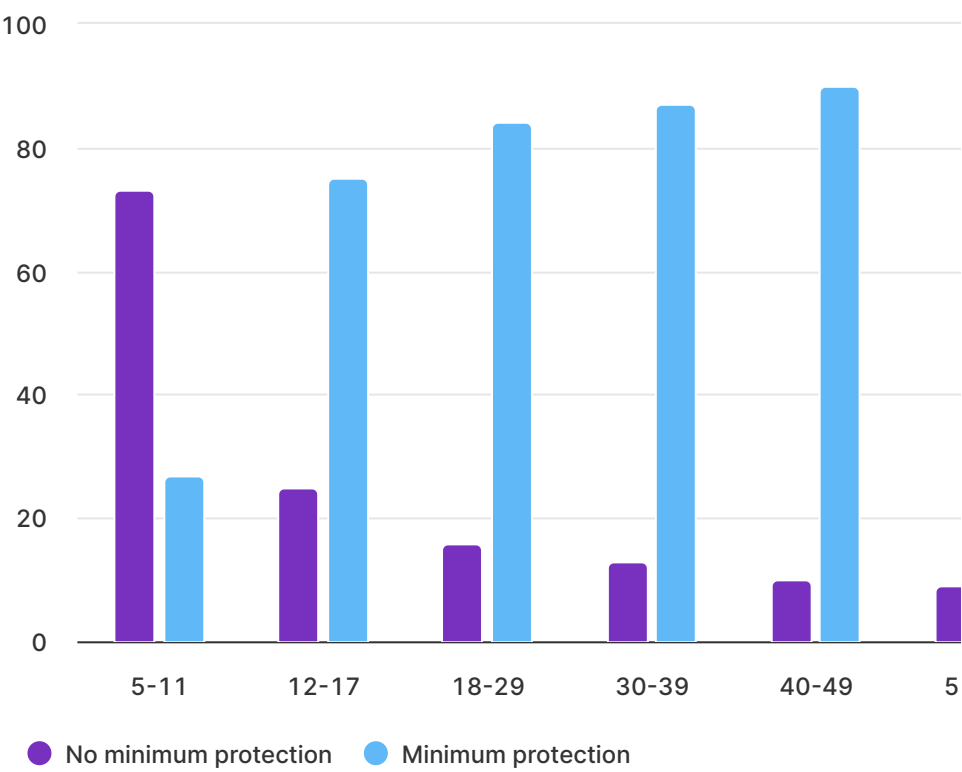

*Healthcare utilisation indicators such as hospitalised and ICU cases typically lag behind the estimated weekly number of infections. This is due to the time taken for*

*symptoms to develop in COVID-19 patients.*
